D	Insignificant/detrimental	good	fair	poor	bad

Notable features:

Good example of the corner building which throughout the area was built larger and sometimes richer in detail than those in the middle of blocks. Has the advantage of a number of windows on Poppleton Street. It has absorbed the house at the rear, lot 73. This probably had a shop front from the beginning, although the bricked-up windows on Poppleton Street suggest this may not have been the case.

Environmental context:

Heavy two-way traffic on Baltimore Street, trucks loading and unloading across the sidewalk. It is suggested that this end building and the one at Schreoder and Baltimore Streets be kept as important to the terrace.
